

As some of you may be aware our school was broken into last night.

School remained open and the day carried on as normal, a huge thanks to year 4 who were without a class room for part of the morning, while the clean-up took place.

I am pleased to report that no equipment was taken from the school, however the main office was the focus of the break in and some office furniture was badly damaged.

After speaking to some of the other businesses and schools around the area it appears that this was not an isolated incident and we will all be cooperating with the police in any way we can. We do have some CCTV footage that will be being passed over to help investigations, if any parents would like to view these to try and help identify the culprit please come and see myself or Mr Coyne.

We would like to offer a huge thank you to all the parents who have offered help and assistance with the clean-up, it really means a lot to us.

If anybody sees anything suspicious around school after hours then please call 101 and report it.

Thanks again for your cooperation and all of your support

Mrs McKeown - Headteacher

Mr Coyne - School Business Manger
